

MUHAMMAD ABDULLAH

Computer Engineering Technologist

H-10, Islamabad, Pakistan | +92 312 6342654 | abdullahfiaz1515@gmail.com

PROFILE

Computer Engineering Technology student with hands-on experience in networking fundamentals, web and backend development, embedded systems, and IT operations. Proficient in C, JavaScript, Node.js, React.js, PHP, MySQL, Arduino, ESP32, and computer networking concepts. Experienced in building practical systems including IoT automation, banking, and clinic management applications. Currently focused on developing strong skills in networking, Cisco technologies, Linux, and network troubleshooting while seeking opportunities to contribute and grow in a professional environment.

TECHNICAL SKILLS

Networking: Computer Networking, TCP/IP, OSI Model, IP Addressing, Subnetting Basics, Cisco Packet Tracer

Programming: C, HTML5, CSS, JavaScript, PHP

Web & Backend: Node.js, Express.js, MySQL

Embedded & IoT: Arduino, ESP32, ESP32-CAM, Raspberry Pi, Sensors, MQTT

IT & Tools: Linux, GitHub, VS Code, XAMPP, phpMyAdmin, Cisco Packet Tracer

AI & Automation: AI Automation, Generative AI API Integration

EXPERIENCE

IT Operations Intern — OGDCL July 2026

Internship experience focused on IT operations and practical exposure to enterprise IT environments.

- Developing practical understanding of IT operations, troubleshooting, and professional IT workflows.
- Applying academic knowledge to real-world organizational systems and learning from experienced professionals.

PROJECTS

Smart Home Automation & Security System ESP32, ESP32-CAM, Raspberry Pi, MQTT, Sensors

- Built an IoT-based home automation and security system using ESP32 nodes, ESP32-CAM, and Raspberry Pi as a local server.
- Integrated PIR, LDR, gas/smoke and water-related sensors with relays and solenoid control for automated responses.
- Implemented real-time monitoring, remote supervision, and secure device communication using MQTT over secure transport.

Web-Based Bank Management System Node.js, Express.js, MySQL, JWT

- Developed a banking management system with role-based access for admin, staff/clerk, and customer users.
- Implemented backend APIs with Node.js and Express.js, JWT-based authentication, secure account management, and transaction tracking.
- Integrated MySQL for user accounts, balances, and credit/debit transaction history.

Clinic Management System PHP, MySQL, Bootstrap, JavaScript

- Developed a responsive web-based clinic management system for streamlining healthcare operations.
- Implemented patient and doctor management, appointment scheduling, status tracking, authentication, and an admin dashboard.
- Used PHP and MySQL for server-side processing and database management.

EDUCATION

Bachelor of Science in Computer Engineering Technology 2023 – Present

International Islamic University, Islamabad (IIUI)

Intermediate — FSc. Pre-Engineering 2021 – 2023

Aspire Group of Colleges, Gujranwala

Matriculation — Science 2019 – 2021

H T M High School, Gujranwala

CERTIFICATIONS

Introduction to ITIL® V4

Get Started with SQL Analytics and BI on Databricks — Simplilearn SkillUp

Creative Frontiers with Generative AI — dub.ai

SOFT SKILLS

Problem Solving | Communication | Teamwork | Time Management | Leadership | Adaptability | Critical Thinking
